Hi everyone and thanks for purchase this project! I hope it be useful for you!
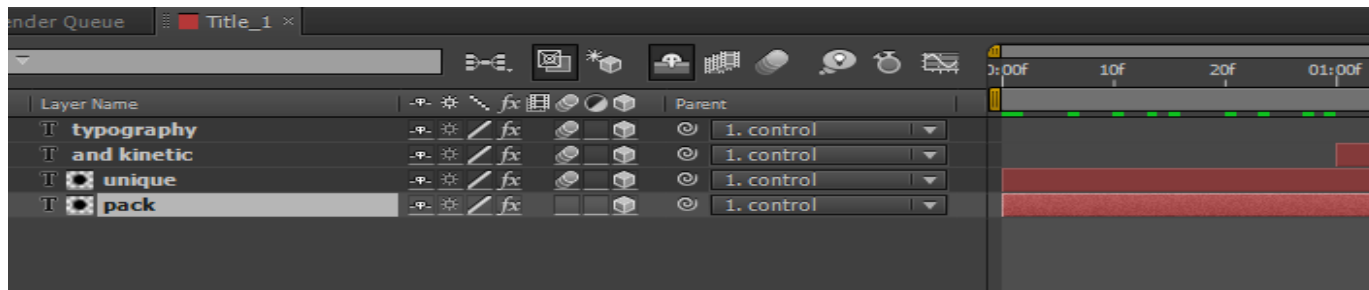

Okay! Let's start edit!

In structure project open folder "All Titles" - here all scenes ready-to-use titles.

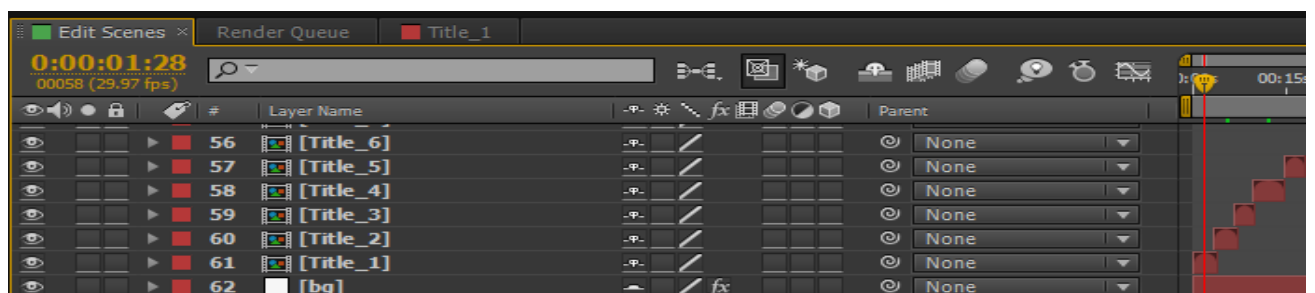

Okay! Open Title_1 - and rewrite text.

All layers on timeline:

Okay! After edit let's return in main scenes where your composition. Open "Edit Scenes". And if here no "Title_1" or any other. You can add very easy! Just drag & drop scene from folder "All Titles" (Project Structure) to timeline composition "Edit Scenes".

Okay! All right! Text edit exactly so same.

Now let's change base color all of scenes. In composition "Edit Scenes" select layer "Controller" and pick new color from palette. And look at result!

Hm.. It's all! All very easy! Good luck and enjoy!
